

I am originally from Michigan; however, my family relocated to Arizona when I was quite young, so Arizona is truly my home. I have been in Bullhead City for 22 years. Prior to Bullhead City, I lived in the Phoenix & Prescott area.

My spouse Jim & I enjoy sailing and power boating. We have been very fortunate to have taken multiple trips to the British Virgin Islands chartering a catamaran and sailing around the islands.

I was with the school district from 2003-2005 and left for an opportunity to advance myself in my career. Seven years later, I have come home! I think the world of the people I worked with in the past that are still here and look forward to forming great working relationships with the ones I have yet to meet. I am also looking forward to furthering my education and being a great asset to the district.
